JUNE

JUNE 12- 16

- Makerspace Middle (6th-8th grade)
- Cybersafe Camp (9th-10th grade) *9am-4pm*

JUNE 19-23

- Makerspace Middle (6th-8th grade)
- "Which Uniform is Right for You?": Careers in Health and Public Services (High School)
- Intro to Animation (High School) *9am-12pm*
- Wood & Mixed Media Art (High School) *1pm-4pm*

JUNE 26-30

- Makerspace Studio (High School)
- DystopiArt (Middle School) *9am-12pm*
- Wire Wrapping Camp (Middle School) *1pm-4pm*

JULY

JULY 3-7

- Robot Lab Camp (High School)

JULY 10-14

- Ag Pro Incubator (High School)
- Digital Design Studio (6th-9th grade)

JULY 17-21

- Agventures: Horticulture & Animal Care (Middle School)
- Woodburning Camp (High School)

JULY 24-28

- Heat & Hammer Metals Camp (8th grade+)
- Girls Take Over Tech Camp (6th-9th grade)

AUGUST

JULY 31-AUGUST 4

- Full Tank Automotive Camp (High School)
- Arts & Apparel (Middle School) *9am-12pm*
- Ceramics & Nature (Middle School) *1pm-4pm*

AUGUST 7-11

- Arts & Apparel (High School) *9am-12pm*
- Ceramics & Nature (High School) *1pm-4pm*

Cybersafe Camp (9a-4p)

This 4-day cybersecurity camp includes labs, hands-on activities, group discussions, and a fun competition with prizes.

FREE

Makerspace Middle

ACC's Makerspace is a playground for creatives, aspiring graphic designers, and DIY aficionados. Participants will get to explore 3D printing, vinyl cutting, button making, laser engraving, and more.

\$160
per person

"Which Uniform is Right for You?": Careers in Health and Public Services

ACC's health and public services programs are teaming up to bring you a week of hands-on career exploration. Topics include dental assisting, medical assisting, nurse aide, biotechnology, nursing, EMS, medical lab technology, cosmetology, criminal justice, and fire protection.

\$160
per person

Intro to Animation (9a-12p)

Keyframe your way into the exciting world of animation! You will gain hands-on experience using a web-based platform to animate creative GIF, SVG, and video files. Finally, you'll use your skills to create your own animated short beginning with concept creation to developing a storyboard to final export.

\$80
per person

DystopiArt (9a-12p)

From sketching initial character concepts to developing a compelling storyline, students will work with their hands to combine recycled junk with sculpting clay to create creature-inspired works of art for a world where only the creative and resourceful survive.

\$80
per person

Wood & Mixed Media Art (1p-4p)

This camp combines wood and mixed media of paint, pencil, wood, and textiles to create works of art.

\$80
per person

Makerspace Studio

Makerspace Studio is a 1-week intensive for high school students interested in graphic design, digital arts, and creative DIY. Participants will explore 3D printing, vinyl cutting, button making, laser engraving, and more. There will be guided instruction and unstructured time to work with over 9 industry-grade facilities and machines.

\$160
per person

Wire Wrapping Camp (1p-4p)

Create your own wire wrapped jewelry and standing sculptures. We will start with simple designs and then let your creativity take you as far as you are willing to go!

\$80
per person

Robot Lab Camp

Join our Mechatronics department for a week of exposure to robotic programming and building. Participants will construct their own robot creations and test them in mini competitions during the week. No prior experience with robots or programming is needed.

\$160
per person

Ag Pro Incubator

Agriculture is an extremely multi-faceted industry, and ACC is here to help you explore your niche! For aspiring ag professionals, our Ag Pro camp gets you hands-on with irrigation, hydroponics, safe dog restraint, roping, landscape design, and more.

\$160
per person

Digital Design Studio

Everything man-made was designed by someone, and the future's next designer could be you! Our Computer-Aided Drafting department is hosting a digital design intensive this summer. You will explore architectural and mechanical design using 3D modeling and VR technologies. Learn to create a house plan and a manufactured part design from scratch.

\$160
per person

Agventures: Horticulture and Animal Care

Always wanted to get into hydroponics at home? Want to merge your creativity and love of the outdoors into landscape design? Or maybe you're interested in small animal management? ACC's Agventures Camp exposes middle school students to the agricultural and adjacent industries. We promise dirty hands, new experiences, and fun.

\$160
per person

Woodburning Camp

Start with simple designs like landscapes and text, and take your creativity as far as you want to go! Local arts entrepreneur, Terry Durham, will walk you through using heat to create images in wood. Participants will get to take home their work.

\$160
per person

Heat & Hammer Metals Camp

The Welding department is opening this summer for a week of blacksmithing, basic welding, and project design. Camp participants will apply their knowledge to a fabrication project that they complete by the end of the week. No prior experience is necessary, but our instructors are ready to push you further no matter where you are. Closed toe footwear is required.

\$160
per person

Girls Take Over Tech Summer Camp

Girls belong in the manufacturing, engineering, and skilled trade industries! This girls-only camp exposes participants to a variety of careers like computer science, mechanical engineering, metalsmithing, and more.

\$160
per person

Full Tank Automotive Camp

Come to ACC's state-of-the-art automotive facility and learn wrench-turning from some of the best. We'll cover the basics--changing a tire, checking fluids, and checking the battery--and also leave room for more advanced instruction if interested. Closed toe shoes are required.

\$160
per person

Arts & Apparel (9a-12p)

Explore a variety of mediums, two and three-dimensional, with the owner of Applied Rare Talent. In the morning, Terry Durham will guide participants through making artistic apparel, like painting their own shoes and designing a T-shirt.

\$80
per person

Ceramics & Nature (1p-4p)

Taking the textures and features of nature and blending it with pottery. Hands on pottery techniques, slab, coil and hand building to create bowls, sculptures and art.

\$80
per person
